Institution Admin- Features to Build

S. No.	Feature / Module	What Institution Admin Does (A)
1	Login	Log in to manage their own institution's data and operations.
2	Forgot Password	Recover their own account when needed.
3	Reset Password	Reset their own password securely.
4	Change Password	Change their own password and enforce local security hygiene.
5	Logout (confirm screen)	Log out from institution admin sessions safely.
6	Active Sessions / Devices	View and revoke their own active sessions/devices.
7	Student Profile	Create and edit all student profiles for the institution.
8	Parent Profile	Create and edit linked parent/guardian profiles.
9	Teacher Profile	Create and edit teacher/faculty profiles.
10	Admin Profile	Manage other institution-level admin user profiles (where allowed).
11	Developer Profile	No access (developer is platform-side).
12	Virtual ID (QR / Face)	Generate Virtual IDs for all users, manage regeneration rules.

13	Profile Edit	Control which profile fields are editable by users; perform admin-side edits.
14	Role List	View institution's role list (teacher, HOD, fee manager, etc.).
15	Assign Role	Assign roles (teacher, HOD, class teacher, fee manager) to users in their institution.
16	Permission Matrix	View how roles map to permissions for the institution.
17	Role Change History	Review history of role changes inside the institution.
18	Privacy Settings	Manage institution-specific privacy options aligned with global defaults.
19	Biometric Consent	Enforce institutional rules for biometric usage and consent management.
20	Data Download Request	Review and act on user data download/delete requests at institution scope.
21	Student Attendance Dashboard	View attendance dashboards for the whole institution.
22	Class Attendance Dashboard	Monitor class-wise attendance across the institution.
23	Attendance Detail per Student	Drill down into student-level attendance details for support and compliance.
24	Face Enrollment	Oversee enrollment processes; support teachers in resolving issues.

25	Flagged Attendance List	Review and resolve flagged attendance cases institution-wide.
26	Attendance Override Requests	Monitor override volumes and patterns; optionally intervene in exceptional cases.
27	CCTV Live View (admin)	Access live CCTV feeds as permitted; use for verification and safety checks.
28	Kiosk List	Manage list of attendance kiosks for the institution.
29	Kiosk Settings	Configure kiosk locations, mappings to classes, and basic rules.
30	Attendance Policy	Define institution-level attendance rules (late/half-day/min time) within global limits.
31	Holiday / No-Class Setup	Configure institution holidays, no-class days, and academic calendar off days.
32	Attendance Alert Settings	Configure when and how alerts go to parents/students for this institution.
33	Attendance Notification Log	View logs of attendance alerts sent from their institution.
34	My Timetable (Student)	Ensure timetables for students are generated and visible correctly (admin test view).
35	My Timetable (Teacher)	Verify teacher timetables and correct mapping to classes/rooms.
36	Class Timetable View	View and manage class-wise timetables institution-wide.

37	Timetable Generator	Generate the full institution timetable using AI engine.
38	Timetable Conflict Resolver	Resolve complex timetable clashes and constraints at institution level.
39	Timetable Change History	View and audit timetable changes across the institution.
40	Institution Calendar	Manage institution-wide academic calendar, events, exams, and holidays.
41	My Calendar	View their own calendar with admin meetings, tasks, and events.
42	Event Details	View and edit institution-wide event details where they are owner.
43	Event Management	Create, approve, and manage events at institution level.
44	Fee Plan Setup	Create fee plans for grades/programs and configure heads/terms.
45	Invoice List	Generate and manage invoices for students.
46	Fee Waiver / Scholarship	Manage waivers, concessions, and scholarships as per policy.
47	Fee Due List	View fee dues and collections across the institution.
48	Fee Payment Home	Read-only view of payments via the portal to reconcile with finance dashboards.
49	Payment Methods	Decide which payment methods are

enabled for the institution (within

enabled for the institution (within gateway options).

50	Payment Confirmation	Verify confirmation logs when resolving fee disputes.
51	Receipt Download	Access or regenerate receipts when parents request support.
52	Transaction History (Student/Parent)	View transaction history for students/parents when needed for support.
53	Online Transactions List (Admin)	Reconcile online payments for the institution.
54	Manual Payment Entry	Record cash/cheque and offline payments.
55	Failed Transactions & Retry	View failed transactions and trigger or guide retry flows.
56	Refund Management	Approve and process refunds subject to institutional policy.
57	My Courses	Enable or disable courses for LMS usage at institution level.
58	Course Detail	Configure whether a course is LMS-enabled and its institutional metadata.
59	Lessons & Topics	Oversee content structure; optionally lock/unlock certain subjects/grades.
60	Resources / Handouts	Monitor large-file usage and approve/disable problematic content if needed.

61	Assignment List (Student)	View overall assignment load and status institution-wide.
62	Assignment List (Teacher)	Monitor teacher assignment volumes and deadlines.
63	Assignment Detail	Review specific assignments in case of disputes or quality checks.
64	Submit Assignment	No direct use (admin may only impersonate for testing in some setups).
65	Grade & Feedback (Teacher)	View institution-level marks/feedback trends to support quality checks.
66	Homework List	View institution-wide homework load patterns.
67	AI Homework Helper	Configure rules: what the AI helper can and cannot do for their institution.
68	AI Explanation View	Monitor AI usage quality and alignment with school policy.
69	Homework Progress	See aggregated homework completion status institution-wide.
70	Ask Assistant (Chatbot)	Ask admin/system queries; get analytics summaries and quick insights.
71	Chat History	View usage charts and patterns for chatbot within the institution.
72	Escalate to Human Support	Receive escalated tickets/queries that require admin attention.
73	Exam Calendar	Configure and publish exam calendars for the institution.

74	Exam Timetable	Approve and finalize exam timetables.
75	Exam Setup	Configure full exam structure (types, weightage, grading rules) for the institution.
76	Hall Ticket (optional)	Enable and manage hall ticket generation for exams.
77	Marks Entry	Monitor marks entry progress across subjects and classes.
78	Result Verification (HOD)	Oversee that HOD verification is completed; intervene where necessary.
79	Publish Results	Control final result publishing and manage revaluation/retotaling processes.
80	Student Result Card	Ensure result cards are correctly generated and accessible.
81	Practice Tests List	Enable or disable AI practice engine for certain classes/grades.
82	Start AI Test	Monitor AI test usage and scheduling; not usually start tests themselves.
83	Test Result & Analysis	View aggregated test analytics for institution-level decisions.
84	Teacher Test Request	Approve or manage large batches of teacher requests if needed.
85	Student Analytics (self view)	See institution-wide patterns derived from student analytics (via other dashboards).

86	Class Analytics	Access class-level analytics for monitoring performance.
87	Department Analytics	View department-wise analytics and performance summaries.
88	Institution Analytics	Use institution-wide dashboards (attendance, exams, fees, engagement) for decisions.
89	At-Risk Students List	Act on early-warning lists by triggering interventions and meetings.
90	Feed (Noticeboard Timeline)	Manage institution-level noticeboard categories and high-level moderation.
91	Announcements List	View all official announcements for the institution.
92	Notice Details	Edit or override institution-level official notices if necessary.
93	Create / Schedule Notice	Create and schedule institution-wide notices and announcements.
94	Messages Inbox	Receive messages from staff/parents; triage important communication.
95	Messages Outbox	Send institution-level or targeted messages to groups.
96	Class Channel	Monitor class channels when required for policy/compliance reasons.
97	Parent–Teacher Chat	Monitor communication rules and handle abuse reports; not for regular chatting.

98	PTM Scheduler	Define PTM windows and settings at institution level.
99	PTM Slot Booking	View booking load and resolve conflicts or constraints.
100	PTM Summary / Notes	Review summaries/notes where policy allows, for follow-up and audits.
101	Clubs Directory	Approve new clubs, manage club categories.
102	My Clubs	See club memberships to understand co-curricular participation patterns.
103	Club Detail	Review and approve club activities and descriptions.
104	Co-Curricular Calendar	Manage institution co-curricular events calendar.
105	Club Admin Page	Approve club admins and review their actions.
106	Tools Home	Use as a quick launcher for all key admin tools.
107	Submit Feedback	Provide feedback upwards (to platform) or internally about modules.
108	Feedback List (Teacher/Admin)	View feedback about institution, courses, teachers, or system.
109	Feedback Analytics	View institution feedback trends and track actions taken.
110	Create Ticket (Helpdesk)	Raise helpdesk tickets for institution issues (technical, academic, finance).

111	Ticket Status	Track status of tickets raised by institution users.
112	FAQ / Knowledge Base	Use KB to resolve issues; suggest new articles if gaps exist.
113	Contact Support	Contact platform support directly for escalations.
114	Notification List	See all notifications sent within the institution.
115	Notification Settings	Configure how often and through which channels notifications go out.
116	Notification Template Management	Create and manage institution-specific notification templates.
117	User Activity Log (per user)	View activity logs for users in their institution for audits and issue resolution.
118	System Audit Log (admin)	View institution-scoped system audit logs, filtered by feature or time.
119	Institution List (Developer)	No access; they only see/manage their own institution, not the global list.
120	Institution Detail & Settings	View and manage their institution's settings summary and certain configurable options.
121	License & Limits	View their own license, usage, and limits; request upgrades or changes.
122	Data Backup / Export	Request/export institution data where allowed and monitor backup status (if

exposed at admin level).
